

Kyocera Mita appointed to Federal Government Panel

Sydney, Australia – Wednesday 4 May, 2011 – Kyocera Mita Australia, one of the world's leading document imaging companies, has been selected by the Commonwealth Department of Finance and Deregulation to supply printers and Multi-function Devices as part of the Major Office Machines Whole of Government Equipment and Support Panel.

“Kyocera's ability to offer both print and MFD technology enabled us to be one of the few vendors chosen to supply product in both category 1 - Network Printers and Category 2 - Multi- function Devices,” David Finn, managing director Kyocera Mita announced.

Kyocera has long been recognised as a major vendor on many State government supply contracts throughout Australia. Kyocera's award winning and reliable technology, class leading Total Cost of Ownership and environmentally friendly design has secured them State government contracts in Western Australia, South Australia and New South Wales and SWARH in Victoria.

“We are really delighted to have been given this opportunity with the Federal government. It was a thorough and rigorous process which took around 9 months to complete so it is rewarding to know our technology and our organisation is recognised in this way. We look forward to extending our offering to Federal government and to a long and successful relationship,” said Finn.

About Kyocera Mita

Kyocera Mita is one of the world's leading document solutions companies and has been dedicated to helping organisations minimise financial and ecological waste for more than 50 years. Delivering a complete range of printers, copiers and other document management solutions, Kyocera is renowned for its unique ECOSYS® durable imaging system. This enables Kyocera to offer cost-saving printer technology with long-life imaging components that provide greater reliability, are friendlier to the environment and present a significantly lower cost per printed page - resulting in a lower Total Cost of Ownership (TCO) over the life of the product.
